Picture Box User Guide

By student C12474932 Marcus Daly

Guest guide

Features of being a **Guest**:

- Checking public images
- Signing in

As a **Guest**, you are limited to only being able to check public images but you can't delete any of them. To access more features, you need to sign into a google account to become a **User**, or an admin account to become an **Admin**.

User Guide

Features of being a **User**:

- Checking public images
- Check your own private images
- Delete your public or private images
- Signing out

As a **User**, you have are able to upload an image and add it to the public library of images or your own private library. Only you can see images in your private library. In addition to this, you have the option to delete any of your private or public images. You can't delete the images other **Users** or **Admins** have uploaded.

Admin Guide

Features of being an **Admin**

- Checking public images
- Check your own private images
- Delete any images
- Signing out

As an **Admin**, not only do you have all the features a **User** has, you'll also be able to delete any public images currently in the public library.
